

Use biofuels to power your car or home generator

Online Biodiesel Resources

- Alaskabiodiesel.org offers local contacts and information on biodiesel, including an Alaska Biodiesel Forum. Local contacts who can install biodiesel engines are also listed. Visit [Alaska VegOil Services](#) to have your car converted to a vegetable oil burning engine!

- The Collaborative Biodiesel Tutorial offers great instructions and resources for individuals who are interested in creating their own biodiesel.

- [Journey to Forever](#) offers lots of information and topics on both biodiesel and ethanol, including information on how to make it yourself.

- The government also offers a basic description of different types of biofuels [here](#).

- The Federal Network for Sustainability offers a biodiesel technical reference guide which discusses many aspects of biofuels usage in the United States.
