

Energy Efficiency

Energy efficiency falls into three main categories: appliances, homes, and vehicles.

For very helpful data on making your appliances and home more efficient, try this government website.

Consumer Reports has a "Greener Choices" website that is loaded with information about energy-efficient products, green ratings, hot topics and solutions.

Alaska Housing Finance Corporation (AHFC) offers financial assistance to help Alaskans reduce their energy bills and make their homes more energy efficient. For more information on current programs and guidelines, visit the AHFC website or call The Home Energy Rebate & Weatherization Hotline at 1.877.325.2508.

- Reduce your home's heat and energy losses
- Replace incandescent lights with fluorescents
- Replace your appliances with "Energy Star" rated appliances
- Buy a hybrid car
